

# Magic Maps for Magic Walls

Glue free, adhesive, removable, repositionable.

Design: PalomarLab

Graphics: Alvino

Simple and sophisticated, Palomar's Magic Maps are world maps that can be attached to a wall magically, without anything to hold them. No glue, no nails, no supports or frames. They stay on the wall on their own. Simply beautiful and surprisingly stable.

Decorative and versatile, they are easily removable and may be repositioned as often as desired, without leaving marks on the walls. With the same magic, the special dots that come with the map illustrate your personal experience and bring the map to life.
