The CityRadio

Sound adventures around the world

Design: Pizzolorusso

THIS RADIO LETS YOU TRAVEL WITHOUT MASKS, CHECKPOINTS OR RESTRICTITONS.

The emotion of a world sound adventure; this is **the CityRadio**.

the CityRadio is different from all existing radios because it offers a listening experience organized by city.

For the first time, the experience of listening to live music and broadcasts of local radio stations from international cities is made possible through an object which is both familiar and surprising and can be touched and listened to.

By acting directly on the keys of Nairobi or Paris or Rio you can immediately connect to the LIVE radio stations of those cities and select and store your favourite radio frequencies.

palomar

This Radio connects you to the world's LIVE city radio stations.

the **CityRadio** is somewhat reminiscent of the appliances of radio's early history, which also displayed city names to identify their frequencies, but it is an absolutely contemporary object.

It is in fact thanks to technology that **the CityRadio** manages to recreate the lost emotion of live listening to the special voice of the world cities through an original and dedicated sound box.

**18 INTERCHANGEABLE KEYS WITH CITY NAMES
ACTIVATE THE RADIO STATIONS OF THOSE CITIES
IN REAL TIME.**

In order to use **the CityRadio** it is necessary to download the specifically developed App which allows you to connect the radio to the Internet and to configure and modify the selection of cities.

The streaming flows of over 60,000 radios are ensured for quality and transmission speed by an exclusive agreement with one of the most accredited streaming flow providers in the world.
